

Inspired by tradition Guided by blood

We at the Vinlandic Heathen Front seek to re-unite ourselves with our past traditions, and in so doing, give ourselves a future. We seek the revival of a positive folk culture for our Germanic kin, as an alternative to the soulless mass-consumption of today's modern world. We value honor and loyalty, strength and bravery, truth and justice, but most importantly, we honor the sacredness of our Germanic blood.

We are Odalists.
We believe in the
organic trinity of:
Blood
Soil
Spirituality

We are not a “youth” or “pop” culture movement which changes with the ebb and flow of the current moral or political climate. Our ideologies are founded in the traditions of a thousand generations, back to the birth of our race. If we are to have a future worth living, we must free our lands and our people from the strangle hold of monoculture and globalism, and seek the knowledge from our past. Will you join us?
